Subject: FW: CERCLA Offsite Rule Determination

Categories: EZ Record - Shared

Hello Mr. Hultquist - EPA has a program called the CERCLA Off-Site Rule where EPA must check the compliance and ground water release issues of a facility when a Government Agency wishes to use the facility for the treatment, storage or disposal of CERCLA wastes. Mr. William Lyle is inquiring about the CERCLA Off-Site Rule status for the Energy Fuels Uranium Mill near Blanding, Utah.

Otis Willoughby with the DSHW suggested that I send my request for compliance information to you. Please answer the following two questions:

1. Is the Energy Fuels Uranium Mill currently in compliance?
2. Are there any uncontrolled ground-water releases?

Thanks.
